

# 1794-OA16

Allen Bradley PLC – Flex I/O 1794

| Technical Specifications:      |                                   |
|--------------------------------|-----------------------------------|
| Manufacturer                   | Rockwell Automation               |
| Brand                          | Allen-Bradley                     |
| Part Number/Catalog No.        | 1794-OA16                         |
| Product Type                   | Flex I/O Digital Output Module    |
| Outputs                        | 16 Nonisolated                    |
| Output Voltage nom.            | 120 Volts AC                      |
| Output Current Rating          | 4.0 Amps                          |
| On-state Current min.          | 5 mA per Output                   |
| On-state Voltage Drop max.     | 1.5 Volts AC at 0.5 Amps          |
| Off-state Leakage Current max. | 2.25 mA                           |
| Isolation Voltage              | 120 Volts Continuous              |
| Flexbus Current                | 80 mA at 5 Volts DC               |
| Power Dissipation              | 4.7 W at 0.5 Amps maximum         |
| Thermal Dissipation            | 16.1 BTU/hour at 0.5 Amps maximum |
